Automatisatie: Back-up

12

- ▶ Wat is UrBackup
- ▶ Tijdsschema

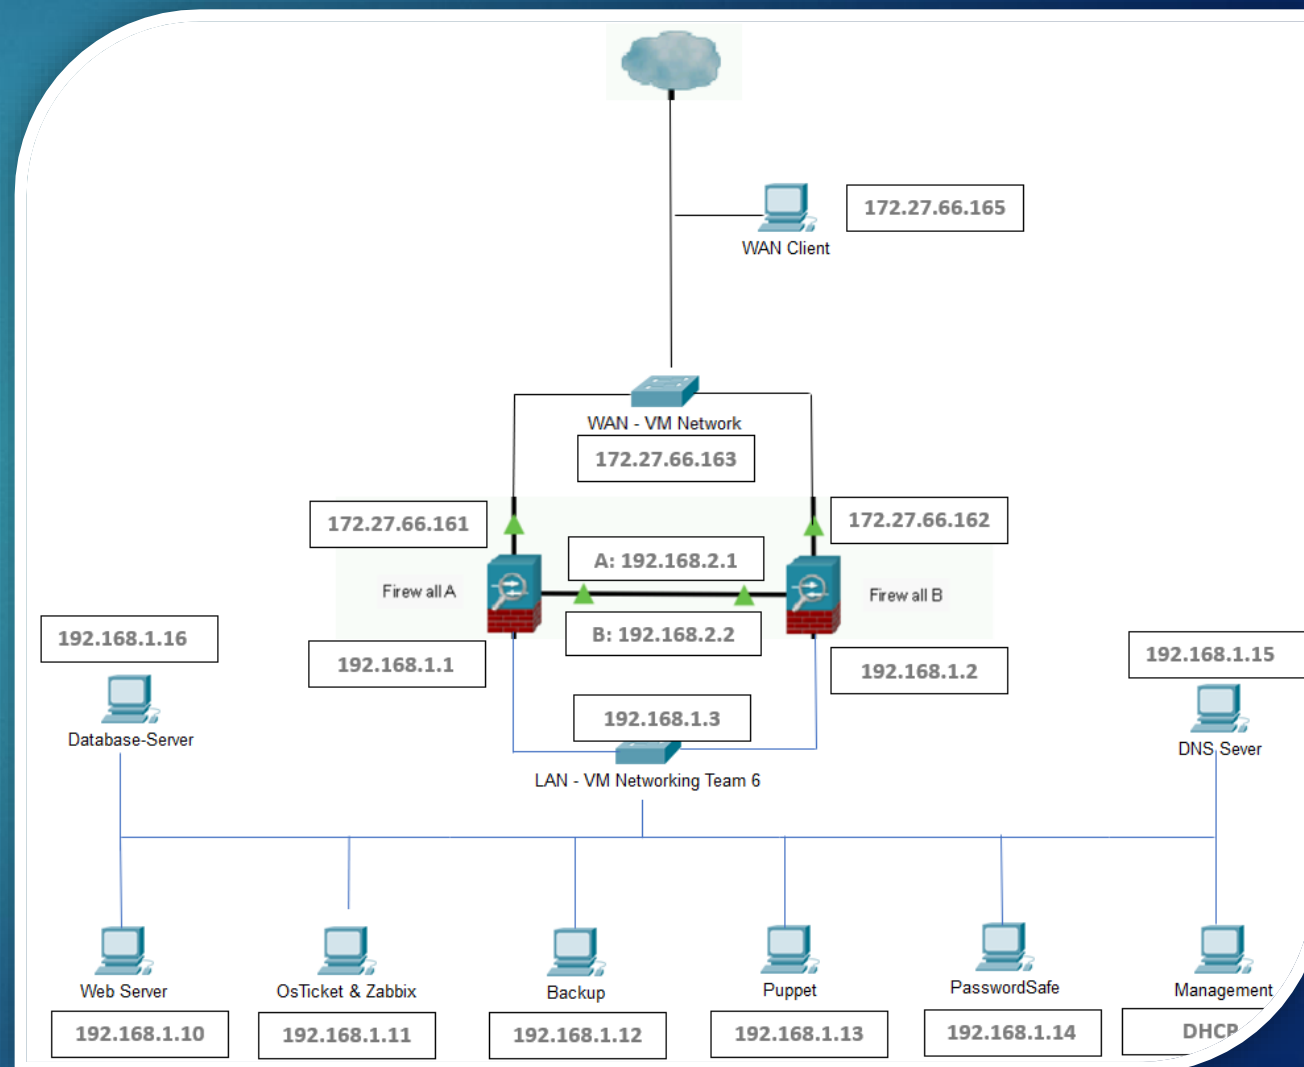

The screenshot displays the UrBackup web interface. At the top, there is a navigation bar with tabs: Status, Activities, Backups, Logs, Statistics, and Settings. The 'Status' tab is currently selected. Below the navigation bar, the 'Backup status' section is visible. It includes a search bar and a 'Show' dropdown set to '25 entries'. To the right of the table are buttons for 'Show/hide columns', 'Copy', 'CSV', and 'Print'. The main part of the interface is a table with the following columns: Computer name, Online, Last seen, Last file backup, Last image backup, File backup status, and Image backup status. The table lists six clients: database-server, dns-server, hb_lampstack, puppet, ticketing, and Passwordsafe. The 'File backup status' for all clients is 'Completed with issues', and the 'Image backup status' for all is 'Not supported'. At the bottom, there is a pagination bar showing 'Showing 1 to 6 of 6 entries' and buttons for 'First', 'Previous', '1', 'Next', and 'Last'. Below the pagination bar are buttons for 'Show all clients', 'Select all', 'Select none', 'Remove selected', 'With Selected', 'Download client for Windows', 'Download client for Linux', and a '+ Add new client' button.

Computer name	Online	Last seen	Last file backup	Last image backup	File backup status	Image backup status
database-server	Yes	19-05-20 15:53	19-05-20 10:48	Never	Completed with issues	Not supported
dns-server	Yes	19-05-20 15:53	18-05-20 15:48	Never	Completed with issues	Not supported
hb_lampstack	Yes	19-05-20 15:53	19-05-20 14:04	Never	Completed with issues	Not supported
puppet	Yes	19-05-20 15:53	18-05-20 14:45	Never	Completed with issues	Not supported
ticketing	Yes	19-05-20 15:53	18-05-20 15:49	Never	Completed with issues	Not supported
Passwordsafe	No	19-05-20 14:28	18-05-20 15:46	Never	Completed with issues	Not supported
